## Relevant Experience

---

### Web Developer, Traffik Advertising Agency

05/2021 – Present | California, USA

- Worked on a **React** project and successfully remodeled the code base to attend the company needs.
- Engineered the application to run with **Next.js** framework for **SEO** purposes, **SSR SSG** benefits.
- Developed very dynamic, elegant and responsive webpages including a **dashboard**, **login**, **multi-page forms**, **detail pages**, **compare tables**.
- Accomplished to integrate an **API** that required server-side requests, by using **Next.js native Route system** under **API with defined endpoints**.
- Integrated **Redux-TK** for **state management** to facilitate working with a mutable state and get the selectors across the whole application. **Formik/Yup** to keep the data capture and validation consistent and clean.
- Worked together with several members of the team to fulfill client needs and accomplish fully functional responsive websites using **Wordpress**, **JavaScript**, **CSS**, **HTML**, **PHP**.

### Software Engineer, CAPGEMINI - at Bank Millennium BCP

09/2018 – 12/2019 | Lisbon, Portugal

- Worked as a **Full Stack Mainframe developer** in the Internal Deposits System. Provided **training** and guidance to new developers that joined the team.
- **Developed** many applications for internal data processing as well as internal **user interfaces** to communicate with **external Web services**. Worked with **VSAM** and **DB2 databases**, support live production, **unit and integrated testing**, developed programs using **COBOL Hogan** and **JCL**.

### Web Developer, Freelancer

01/2015 – 01/2016 | Lisbon, Portugal

- Developed and maintained websites fully integrated with a back-office in **Joomla**, and **Wordpress**,
- Engineered web pages with **JavaScript**, **HTML5 semantics**, **CSS3**, **PHP**, various plugins and **libraries**. Focused on delivering **responsive** and **dynamic web pages** using tools like, **CSS3 @media Rules**, **Bootstrap**, **Vanilla JavaScript** and **jQuery**.

### Web Developer, Stamina The Business Fuel

08/2012 – 12/2014 | Lisbon, Portugal

- Developed **over 30+ websites from the ground up**, always balancing between delivering features and creating a solid architectural foundation.
- Engineered web pages with **Wordpress**, **Joomla**, **HTML5 semantics CSS3**, **PHP**. Focused on delivering **responsive** and **dynamic** web pages using, **CSS3 @media Rules** and **Bootstrap Framework** along with **Vanilla JavaScript** and **jQuery**. **Cross-browsing** and **unit testing**
